PUBLIC SECTOR

Working Through the Noise

Teachers, first responders, city crews and healthcare staff work in some of the loudest jobs in public service. Hearing damage builds slowly, and much of it can be prevented.

Now, for the first time, Aflac is offering public sector employees a comprehensive hearing health program with Tuned Care.

Education

1 in 3
teachers screened had **insufficient or poor hearing**

8 in 10
noise-exposed education workers **don't wear hearing protection**

First Responders & City Workers

55%
of firefighters report **changes in their hearing**

Police officers are
1.4x
more likely than civil servants to show **noise-related hearing loss**

Nearly
1 in 5
noise-exposed public administration workers **have hearing loss**

Healthcare

1 in 10
healthcare workers have **trouble hearing**

1 in 14
healthcare workers have **tinnitus** (ringing in the ears)

THE SOLUTION

Tuned Care

Hearing care for every employee and their family, at no cost to the employer.

Tuned Care is the leading hearing health benefit. Employees join free and pay only for the care they use, at member prices. Everything starts online.

$0
for the employer

$0
for employees to join

0
minimum group size

WHAT MEMBERS GET

- **Free online hearing screenings,** as often as they like
- **Video visits** with state-licensed Tuned Care telehealth audiologists, $100 per visit
- **30–75% off** hearing aids, OTC hearing aids, hearing glasses, hearing protection and tinnitus apps
- **Help with** hearing loss, tinnitus, balance and noise protection
- **Family can join,** including parents

HOW IT WORKS

1. **Sign up online, free**
2. **Take a free hearing screening**
3. **See a telehealth audiologist if needed**
4. **Get devices at member prices**
